

PROSUPPORT PROFILE T & N

VARNISHED ALUMINIUM
NATURAL ALUMINIUM

LAYING INSTRUCTIONS

1. Choose "PROSUPPORT PROFILE" desired model. 2. Cut "PROSUPPORT PROFILE" to the desired length and put on the supports until completely leveling. 3. Lay the floor by adjusting the height of the supports until completely leveling. 4. Cut the tiles of the correct size to close the perimeters of the floating floor. 5. Fix on the vertical surface of the profile the tiles using a suitable adhesive.

PROSUPPORT PROFILE is a profile for the protection and finishing of the external edge of raised floors in ceramic, wood and composite materials. The vertical section of the profiles features a specially designed fins that create a dovetail cladding system. This dovetail cladding system allows for the adhesive used to fix the covering to also mechanically bond to the profiles. The profile is also available with a decorative edge of 2 cm height (PROSUPPORT PROFILE T).
