

## SKIRTING 100

### DESCRIPTION

**SKIRTING 100** is a stainless steel skirting board profile, available with or without adhesive. Thanks to its modern design and to its two finishes, **SKIRTING 100** is a very requested skirting board profile that appears, after laying, modern and elegant.

### MATERIAL

**SKIRTING 100** is a polished and satin effect stainless steel AISI 304/1.4301-V2A with a high of 100 mm. The profile is available with adhesive and without adhesive. It could cover a 10 mm perimetral joint and thanks to the availability of special pieces such as inside and outside corners, junctions and end caps, is an easy to lay skirting board profile.

### AREAS OF USE

**SKIRTING 100** in stainless steel is suitable for all environments.

### WARNINGS

Do not use **SKIRTING 100** in stainless steel in the swimming pool and in environments where strong substances are used. For cutting the profile it is recommend to use a hacksaw with steel blade and treat the cutting surface with a stainless steel passivation product. Do

not use the version with adhesive on porous supports.

### MAINTENANCE

**SKIRTING 100** does not require any special maintenance; it is suggested to clean it with normal household cleaning products.

### LAYING INSTRUCTION

1. Choose "**SKIRTING 100**" in the desired finish.
2. Cut "**SKIRTING 100**" to the desired length.
3. Remove carefully any remain of oil, fat and dirty from the surface where the profile will be laid.
4. When the surface is perfectly dry, apply silicone (in case of self-adhesive profile, remove the protective film).
5. Press the profile evenly until it is completely adherent to the wall.
6. Use the special pieces to obtain a workmanlike application.

### TEXT TEMPLATE FOR TENDERS

Delivery and installation of skirting board profile in polished / satin finish effect stainless steel AISI 304/1.4301-V2A with adhesive / without adhesive. The profile, 100 mm high, could cover a 10 mm perimetral joint.
