

SKIRTING 100

DESCRIPTION

SKIRTING 100 is an aluminium skirting board profile, available with or without adhesive. Thanks to its modern design and to its five finishes, **SKIRTING 100** is a very requested skirting board profile that appears, after laying, modern and elegant.

MATERIAL

SKIRTING 100 is a silver anodized aluminium, polished titanium aluminium, brushed silver, copper, black and titanium aluminium skirting board profile with a high of 100 mm. The profile is available with adhesive and without adhesive. It could cover a 10 mm perimetral joint and thanks to the availability of special pieces such as inside and outside corners, junctions and end caps, is an easy to lay skirting board profile.

AREAS OF USE

SKIRTING 100 in aluminium is suitable for indoors environment.

WARNINGS

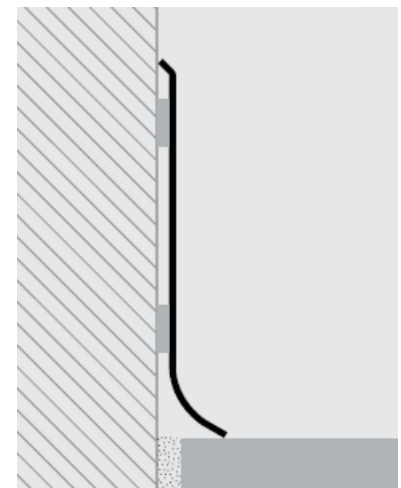

Do not use **SKIRTING 100** in aluminium in swimming pool and in environments where aggressive substances are used. Do not use the version with adhesive on porous supports.

MAINTENANCE

SKIRTING 100 does not require any special maintenance; it is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTION

1. Choose "**SKIRTING 100**" in the desired finish.
2. Cut "**SKIRTING 100**" to the desired length.
3. Remove carefully any remain of oil, fat and dirty from the surface where the profile will be laid.
4. When the surface is perfectly dry, apply silicone (in case of self-adhesive profile, remove the protective film).
5. Press the profile evenly until it is completely adherent to the wall.
6. Use the special pieces to obtain a workmanlike application.
