

## SKIRTING 7016

### DESCRIPTION

**SKIRTING 7016** is a foam vinyl resin profile suitable for laminate floorings, floating and glued wooden floors. Its particular design with its wide range of available finishes, make it a highly sought after profile.

### MATERIAL

**SKIRTING 7016** is a foam vinyl resin profile with a height of 70 mm. It is covered with a film in vinyl resin available in white, black, silver and in 30 finishes with wood effect that could be perfectly matched with the profiles of the **PROINSERT SYSTEM**. The profile has a good chemical resistance and could cover a 16 mm perimetral joint. The profile is anchored to the wall with plastic supports with a height of 37.5 mm. The supports could be fixed to the wall with screws every 50 cm. The wide range of colors, combined with the simplicity of installation, make **SKIRTING 7016** an appreciated profile.

### AREAS OF USE

**SKIRTING 7016** in foam vinyl resin covered with a film in vinyl resin is suitable for every indoors flooring.

### WARNINGS

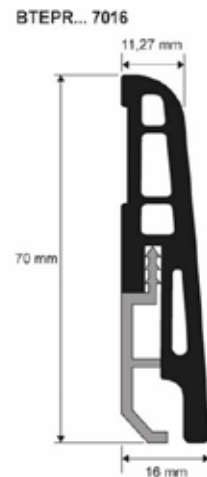

Do not use **SKIRTING 7016** in foam vinyl resin profile covered with a film in vinyl resin in environments where aggressive substances are used and outdoors.

### MAINTENANCE

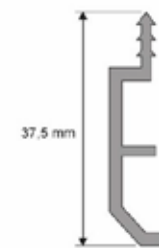

**SKIRTING 7016** does not require any special maintenance; it is suggested to clean it with normal household cleaning products.

### LAYING INSTRUCTIONS

1. Choose "**SKIRTING 7016**" in the desired finish.
2. Cut "**SKIRTING 7016**" to the desired length.
3. Fix the plastic supports to the wall with screws every 50 cm.
4. Fix the profile to the support applying low pressure.
