

PROJOLLY SQUARE is a square corner bead profile in polished stainless steel AISI 304/1.4301-V2A that can be applied on external corners of coverings. It can be used to close the perimeter of coverings, like a connection profile between step tread and riser of stairs coated with ceramic and natural stone tiles, and also as separation profile for floor and wall coverings. Its particular section and the availability of special pieces such as internal and external corners, end caps and joints make **PROJOLLY SQUARE** a much sought-after profile that allows a workmanlike application even in environments subject to high mechanical stresses.

SUITABLE FOR USE IN CONTACT WITH FOODSTUFFS.

INSTRUCTIONS FOR LAYING METHODS

1. Choose "PROJOLLY SQUARE" according to the tile thickness and desired finish.
2. Cut "PROJOLLY SQUARE" to the desired length and apply the adhesive on the support where the profile will be laid.
3. Press the anchoring flange of "PROJOLLY SQUARE" into the adhesive.
4. Lay the tiles, aligning them with the profile leaving a 2 mm joint. Remove immediately all remains of adhesive from the surface of the profile.
5. Fill the joints between the profile and the tiles with grout, in order to avoid water stagnation. Remove immediately all the remains of grout from the surface of the profile.
