PROSKIRTING GILED is an innovative profile in silver anodized aluminum and polished chrome, with 80 and 100 mm height, with a rigid vinyl resin TOP PROFILE, with a 17,5mm exposed surface, available in 9 different marmorised finishes, provided with an integrated LED lighting system generating a soft and indirect light. **PROSKIRTING GILED** can be used instead of the classic skirting board or rotated 180 degrees and installed along the ceiling edges, allowing to cover up to 15mm wide joints. The reflection of the LED light by the aluminum surface of the profile creates a modern atmosphere. **PROSKIRTING GILED** is equipped with all the trim pieces available such as inside and outside corner, joints, end caps and power supply box. *Conceived and designed by the designer Gilberto Toneguzzi.*

EXAMPLES AND INSTRUCTIONS FOR LAYING METHODS
1. Choose "PROSKIRTING GILED" depending on the desired finish and fixing system; **2.** If you are installing the version with adhesive: clean the surface on which the profile is to be laid, ensuring that it is dry. Remove the protective film and place the profile, applying adequate pressure on it. If you are installing the punched version, drill the surface on which the profile is to be laid using a drill with 5mm diameter and insert the 5x 25mm screws. Screw the profile; **3.** Connect the 12/24 V adaptor; **4.** Fix the LED light to the inclined side of the aluminum profile or to the vinyl resin support and install electrical wiring; 5. Apply the rigid vinyl resin insert to the aluminum profile.
