- 01 Graphic module H24,9x92,9x1,6
- 02 LCD monitor module H29,9x46,4x1,6
- 03 Display module H29,9x46,4x1,6
- 04 Display module H29,9x92,9x1,6
- 05 Step module H29,9x92,9x29,9
- 06 Glass display module H29,9x92,9x40
Plexiglass display H19,9x91x37,3
- 07 Base module Length 20 cm,
H75.9x92.9x20
- 08 Base structure

Our modular, interchangeable panel display incorporates a metal base of 225 cm in height, 93 cm in width and 44 cm in length, which acts as supporting structure. Panels can easily be fixed to this structure to display photos showing typical profile applications and samples of the products concerned. The central shelf presents a sample setting (illustrative cross section) of the most popular models of profile from the upper display panel. Thanks to the presence of setting photos, profile samples and an illustrative cross section, this modular display offers customers a complete overview of the application potential of Progress Profiles' products and systems. Easy assembly and compact dimensions mean that the display can be adapted easily to meet the needs of showrooms and points of sale of all types. The modular design of the display panels allows the system to be configured to advertise the products you wish to promote most. The system can also be renewed as time passes and can easily be updated to present new finishes and products as they are introduced.

MODULAR DISPLAY WITH STAIR NOSINGS

STONE LINE

For Cersaie 2017, Progress Profiles realized STONE LINE, a new range of finishes for covering profiles. This new line is available in 3 different models of profiles e one listel: PROJOLLY SQUARE, PROJOLLY QUART and PROTERMINAL are suitable to protect steps and decking, as a floor edging profile and skirting coverings; instead, PROLISTEL P is also used to separate tiles and to decorate them. The new profiles create a material effect thanks to the material in aluminum glazed with epoxy powder in special oven. They are available in different measures - from 6 to 25 mm of height -, and it is also possible to choose among 12 different shades from white to sandy, grey, black and brass. This elegant and sober decorative listels' line gives a plus to every space, guaranteeing the high quality of materials.
