

Special**Producers of profiles for LVT, vinyl and PVC floors****Progress Profiles**

Progress Profiles supplies profile solutions for all situations for the most demanding clients, ranging from decorative strips to solutions for all Technical problems. For limited thicknesses Progress Profiles has an extensive range. Differences in height from 4 to 19mm are possible. They also continue to give a prominent place to aesthetic objectives [aluminium, bronze, steel, real wood, etc.]. Moreover, there is an extensive range of colours and finishes, including 30 wood shades. All profiles are tested in accordance with the highest standards. Non-toxic and high-quality raw materials are part of the secret. The most coveted profiles are 'threshold profiles' between different types of floors. Whilst they realise that multifunctional profiles are practical, they pay more attention here to elegance and design. Progress Profiles presents no fewer than 13,000 references.
