

## 2 PERSONALIZE YOUR SKIRTING

Progress Profiles, a major manufacturer and seller of technical and decorative profiles and membranes for construction and interior design, allows now to personalize Proskirting 7016 and Proskirting 7011 with images and decorations. A cutting-edge technology transfers the chosen image on a paper pellicle that is protected by a paint of class AC1 or superior, with adhesives and resistant and cross-linked systems without variations in color, shadows and shades. Proskirting 7016 and Proskirting 7011, realized in expanded vinyl resin and already available in white, black, silver and in over 30 wood-effect finishes, give a touch of personality to indoor and outdoor spaces.
