Ø 8  
mm

**TP...10C**

Ø 10  
mm

### DESCRIPTION

**FULL ROUND TUBE** is an aluminium profile. Its particular section and the availability in three finishes, make it a profile that can be easily matched with any kind of material.

### MATERIAL

**FULL ROUND TUBE** is a profile in anodized silver and gold aluminium and polished chrome aluminium. The profile is available in the diameter of 6-8-10 mm. The availability in three different finishes and three diameters make it a much sought after profile.

### AREAS OF USE

**FULL ROUND TUBE** in anodized aluminium is suitable for indoors environment where good resistance to mechanical and chemical stresses are required.

### WARNINGS

Do not use **FULL ROUND TUBE** in anodized aluminium outdoors and in environments where aggressive substances are used. Clean immediately the surface of the profile from all remains of adhesive or grout after laying; the permanence of these substances on the surface may lead to formation of non-removable aluminium hydroxide (dark halos).

### MAINTENANCE

**FULL ROUND TUBE** does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

### LAYING INSTRUCTIONS

1. Choose "**FULL ROUND TUBE**" according to the desired finish.
2. Cut "**FULL ROUND TUBE**" to the desired length.
3. Remove carefully any remains of oil, fat and dirt from the surface where the profile will be laid.

### TEXT TEMPLATE FOR TENDERS
