

EMPTY RECTANGULAR TUBE

DESCRIPTION

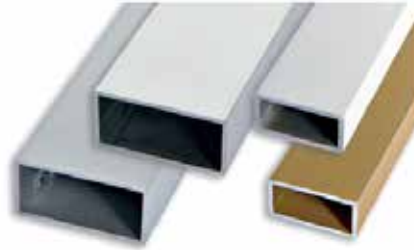

EMPTY RECTANGULAR TUBE is a rectangular aluminium profile, empty inside. Its particular section and the availability in four finishes, make it a profile that can be easily matched with any kind of material.

MATERIAL

EMPTY RECTANGULAR TUBE is a rectangular aluminium profile, empty inside, in anodized silver and gold aluminium, polished chrome aluminium and white varnished aluminium. The profile is available with the smaller side of 10 and 15mm height and the higher side of 20 and 30mm. The availability in four different finishes and four heights make it a much sought after profile.

AREAS OF USE

EMPTY RECTANGULAR TUBE in anodized aluminium is suitable for indoors environment where good resistance to mechanical and chemical stresses are required. **EMPTY RECTANGULAR TUBE** in varnished aluminium is suitable to be used for every walls.

WARNINGS

Do not use **EMPTY RECTANGULAR TUBE** in anodized aluminium outdoors and in environments where aggressive substances are used. Clean immediately the surface of the profile from all remains of adhesive or grout after laying; the permanence of these substances on the surface may lead to formation of non-removable aluminium hydroxide (dark halos).

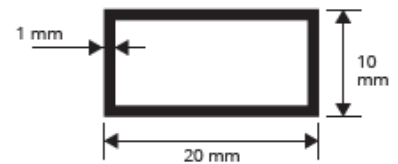

MAINTENANCE

EMPTY RECTANGULAR TUBE does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

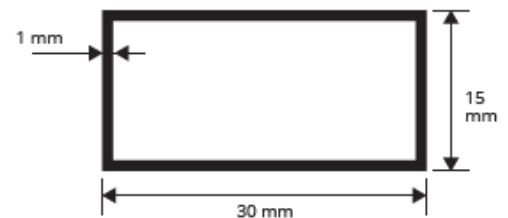

LAYING INSTRUCTIONS

1. Cut "**EMPTY RECTANGULAR TUBE**" to the desired length and, if is necessary, apply the adhesive to the support where the profile will be laid.
