

EMPTY ROUND TUBE

DESCRIPTION

EMPTY ROUND TUBE is an aluminium profile. Its particular section and the availability in three finishes, make it a profile that can be easily matched with any kind of material.

MATERIAL

EMPTY ROUND TUBE is a profile in anodized silver and gold aluminium and polished chrome aluminium. The profile is available in the diameter of 6-8-10-12-16-18-20-24 mm.

The availability in three different finishes and eight diameters make it a much sought after profile

AREAS OF USE

EMPTY ROUND TUBE in anodized aluminium is suitable for indoors environment where good resistance to mechanical and chemical stresses are required.

WARNINGS

Do not use **EMPTY ROUND TUBE** in anodized aluminium outdoors and in environments where aggressive substances are used. Clean immediately the surface of the profile from all remains of adhesive or grout after laying; the permanence of these substances on the surface may lead to formation of non-removable aluminium hydroxide (dark halos).

MAINTENANCE

EMPTY ROUND TUBE does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTIONS

1. Choose "**EMPTY ROUND TUBE**" according to the desired finish.
2. Cut "**EMPTY ROUND TUBE**" to the desired length.
3. Remove carefully any remains of oil, fat and dirt from the surface where the profile will be laid.
