

PROFOIL PANEL SYSTEM

High density extruded polystyrene panel provided on both sides with a waterproofing membrane that guarantees the laying of the tiles. The panels, with a size of 91.5 x 152.5 cm (3' x 5'), are available with a thickness of 6, 9, 12, 16, 25, 38, 50 mm (1/4", 3/8", 1/2", 5/8", 1", 1 1/2", 2"). They can be laid/fixed indoor on walls, floors and ceilings.

Article	Description	pc x pallet	mq x pallet

PFLPAN38	PROFOIL PANEL-extruded polystyrene + PROFOIL Thermowelded-H:38,1mm (1 1/2")-91,5cm x 152,5cm -1,40 m ²	20	27,9
PFLPAN50	PROFOIL PANEL-extruded polystyrene + PROFOIL Thermowelded-H:50,8mm (2")-91,5cm x 152,5cm -1,40m ²	15	20,9

PRO-GOBOARD PANEL SYSTEM

High density polyisocyanurate foam panel, covered on both sides with a fibre-glass reinforced cement-based waterproof coating to permit the laying of tiles. The panels, with a size of 91,5 x 152,5 cm (3' x 5'), are available with a thickness of 6, 12, 25, 50 mm (1/4", 1/2", 1" e 2"). They could be used indoor and outdoor on floors, walls and ceilings.

Article	Description	pc x pallet	mq x pallet
PGBOR06	High density polyisocyanurate foam panel covered on both sides with a reinforced cement-based -H:6,25 mm (1/4")-92cm x 152cm -1,40 m ²	75 Pz	105 mq
PGBOR125	High density polyisocyanurate foam panel covered on both sides with a reinforced cement-based -H:12,5mm (1/2")-92cm x 152cm -1,40 m ²	60 Pz	84 mq
PGBOR25	High density polyisocyanurate foam panel covered on both sides with a reinforced cement-based -H:25mm (1")-92cm x 152cm -1,40 m ²	30 Pz	89,4 mq
PGBOR50	High density polyisocyanurate foam panel covered on both sides with a reinforced cement-based -H:50mm (2")-92cm x 152cm -1,40 m ²	15 Pz	44,7 mq
