

PROINSERT BASE 45 / 40

DESCRIPTION

PROINTER BASE 45 and **40** are bases in aluminium that can be used to fix profiles that allow to connect two wooden or laminate floors and to complete wooden and laminate floors along the perimeter.

MATERIAL

PROINTER BASE 45 and **40** are profiles in natural aluminium with a width of 45 and 40 mm. The profiles, to be placed under the laminate and wooden flooring, are equipped with a punched flange that guarantees its fixing with adhesive and screws. **PROINTER BASE 45** can be used with profiles that allow to connect two wooden or laminate floors and that work as expansion joints. **PROINTER BASE 40** can be used with profiles that work as perimeter expansion joints for laminate and wooden flooring.

AREAS OF USE

PROINTER BASE 45 and **40** guarantee the fixing of the profile of the **PROFIXER LINE SYSTEM** for wooden and laminate floors.

WARNINGS

Do not use **PROINTER BASE 45** and **40** in aluminium in the swimming pool, outdoor and in environments where aggressive substances are used.

MAINTENANCE

PROINTER BASE 45 and **40** do not require any special maintenance; it is suggested to clean them with normal household cleaning products.
