

PROBATH

DESCRIPTION

PROBATH is a cove shaped profile in coextruded vinyl resin conveniently designed to connect the wall coverings with sink, bath tubs, hydro massage baths and shower trays and to guarantee cleanliness and hygiene. Its particular section and ease of installation make it a much sought-after profile.

MATERIAL

PROBATH is a cove shaped profile in shockproof non-toxic coextruded white vinyl resin. With a visible surface of 16 x 16 and 20 x 20 mm and equipped with an anchoring arrow shaped flange. It is suitable to connect the wall coverings with sink, bath tubs, hydro massage baths and shower trays and thanks to its radius of curvature to guarantee cleanliness and hygiene. The profile is resistant to fungi, bacteria and UV rays. Its particular section and the availability of special pieces, such as internal and external corners, end caps and junctions, make **PROBATH** a much sought-after and easy to lay profile.

AREAS OF USE

PROBATH in shockproof non-toxic coextruded vinyl resin is suitable to connect the wall coverings with sink, bath tubs, hydro massage baths and shower trays.

WARNINGS

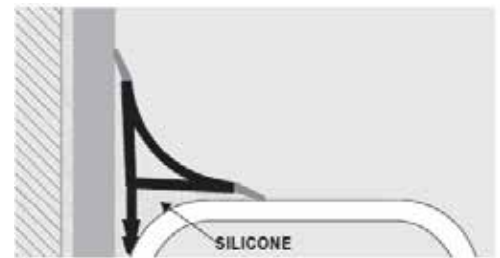

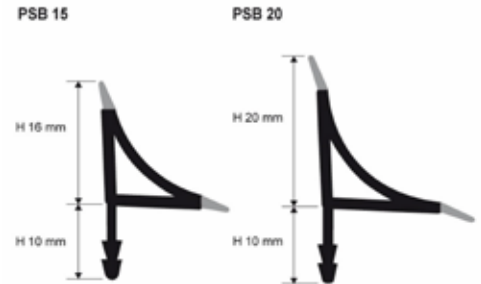

Do not use **PROBATH** in shockproof non-toxic coextruded vinyl resin outdoors. Do not clean it with substances that contain acetone and ethyl – butyl acetate (solvents).

MAINTENANCE

PROBATH does not require any special maintenance; It is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTIONS

1. Choose "**PROBATH**" according to the desired visible surface.
2. Cut "**PROBATH**" to the desired length.
3. Remove all remains of oil, grease and dirt from the surface where the profile will be laid.
4. When the support is dry, apply the silicone and press the profile until is completely glued without hitting.
