

PROEDGE PVC

DESCRIPTION

PROEDGE PVC is a corner bead profile in vinyl resin that can be applied on external corners after the tiles laying. Its particular section makes it a sturdy profile suitable for a lot of environments.

MATERIAL

PROEDGE PVC is a corner bead profile in shockproof non - toxic white vinyl resin with a visible surface of 25x25 - 30x30 - 40x40 and 50x50 mm. It can be applied on external corners after the tiles laying. It is available with adhesive. Its good resistance and the availability of four visible surfaces, make **PROEDGE PVC** suitable for a lot of environments.

AREAS OF USE

PROEDGE PVC in shockproof non - toxic vinyl resin is suitable to be used for indoor walls.

WARNINGS

Do not use **PROEDGE PVC** in shockproof non - toxic vinyl resin outdoors. Do not clean it with substances that contain acetone and ethyl - butyl acetate (solvents).

MAINTENANCE

PROEDGE PVC does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTIONS

1. Choose "**PROEDGE PVC**" according to the desired visible surface.
2. Cut "**PROEDGE PVC**" to the desired length.
3. Remove carefully any remains of oil, fat and dirt from the surface where the profile will be laid.
4. When the surface is perfectly dry, apply silicone (in case of self-adhesive profile, remove the protective film).
5. Press the profile evenly until it is completely adherent to the wall.
