

PROINTER AC

DESCRIPTION

PROINTER AC is a cove-shaped stainless steel profile particularly suitable thanks to its radius of curvature to ensure cleanliness and hygiene. Its availability in four heights and three finishes, make it a much sought after profile.

MATERIAL

PROINTER AC is a cove-shaped profile in polished, super polished and satin finish stainless steel AISI 304 / 1.4301 - V2A. It is available in the heights of 8 / 10 / 12.5 and 15 mm and it is particularly suitable to ensure cleanliness and hygiene. It has a punched flange that guarantees a perfect grip to the adhesive. The availability in four heights, three finishes and special pieces, such as internal and external corners, make **PROINTER AC** a much sought after and easy to lay profile.

AREAS OF USE

PROINTER AC in stainless steel AISI 304/1.4301 – V2A is suitable for every kind of environment where high resistance to mechanical and chemical stresses are required. The profile is suitable for food contact after cleaning and removing any surface residue.

WARNINGS

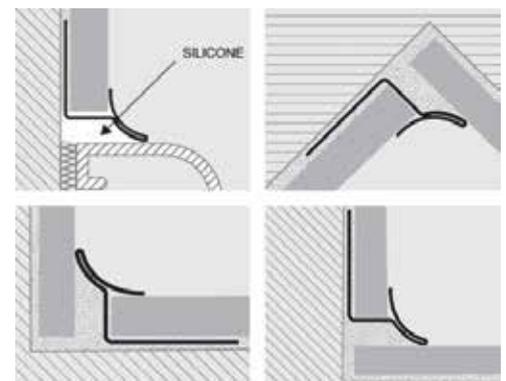

Do not use **PROINTER AC** in stainless steel AISI 304/1.4301 – V2A in the swimming pool and in environments where strong substances are used. For cutting the profile it is recommend to use a hacksaw with steel blade and treat the cutting surface with a stainless steel passivation product.

MAINTENANCE

PROINTER AC does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTIONS

1. Choose "**PROINTER AC**" according to the tile thickness and desired finish.
2. Cut "**PROINTER AC**" to the desired length and apply the adhesive on the support where the profile will be laid.
3. Press the anchoring flange of "**PROINTER AC**" into the adhesive.
4. Lay the tiles, inserting them into the cavity of the profile. Remove immediately all remains of adhesive from the surface of the profile.
