

PROINTER AL

DESCRIPTION

PROINTER AL is a cove-shaped aluminium profile particularly suitable thanks to its radius of curvature to ensure cleanliness and hygiene. Its availability in two heights and four finishes, make it a much sought after profile.

MATERIAL

PROINTER AL is a cove-shaped profile in anodized silver and gold aluminium and polished chrome and gold aluminium. It is available in heights of 8 / and 10 mm and it is particularly suitable to ensure cleanliness and hygiene. It has a punched flange that guarantees a perfect grip to the adhesive. The availability in two heights, four finishes and special pieces, such as internal and external corners, make **PROINTER AL** a much sought after and easy to lay profile.

AREAS OF USE

PROINTER AL in anodized and polished aluminium is suitable for indoors environment where good resistance to mechanical and chemical stresses are required.

WARNINGS

Don't use **PROINTER AL** in anodized and polished aluminium outdoors and in environments where aggressive substances are used. Clean immediately the surface of the profile from all remains of adhesive or grout after laying; the permanence of these substances on the surface may lead to formation of non-removable aluminium hydroxide (dark halos).

MAINTENANCE

PROINTER AL does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTIONS

1. Choose "**PROINTER AL**" according to the tile thickness and desired finish.
2. Cut "**PROINTER AL**" to the desired length and apply the adhesive on the support where the profile will be laid.
3. Press the anchoring flange of "**PROINTER AL**" into the adhesive.
4. Lay the tiles, inserting them into the cavity of the profile. Remove immediately all remains of adhesive from the surface of the profile.
